

# STOP 'n GO

**WITH A GESTURE ARRESTS THE CONCRETE FLOW, ELIMINATES THE MATERIAL FALL AND THE WASTE.**

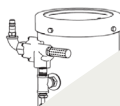

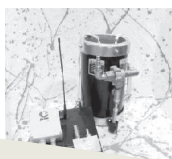

A new technology in order to improve the job quality, maximizing the safety and reducing the consumption. Light, easy to install and compatible with all the pumps, Stop `n Go is the last frontier of the field.

*“ Complete block/release cycle in only 4 seconds with every type of pump ”*

The system is compatible with all the hoses from 3 to 5 inches and is easy controllable through dedicated remote control. It works with compressed air and is operating with an interval of only 4 seconds from the moment of the stop to the effective arrest of the flow.

- Arrests the flow with facility
- Improves the safety
- Light and easy installable
- Transferable from a pump to an other
- Operating in only 4 seconds
- Controllable through dedicated remote control
